## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed on September 08, 2008 has been entered. No claims have been amended. No claims have been cancelled. No claims have been added. Claims 1-52 are still pending in this application, with claims 1, 9, 18, 25, 29, 33, and 34 being independent.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-52 are rejected under 35 U.S.C. 102(e) as being anticipated by Fobert et al. (US 6,853,713).
3. In regards to claims 1, 25, 29, and 33, Fobert discloses the method, contact management system, and computer-readable medium for contact management comprising: maintaining an address book (e.g., address book/address book database 21, See Fig. 1-2); providing a notification (e.g., via pop-up window 28a, See Fig. 7), via a user terminal (e.g., client terminal 16, See Fig. 2), of an incoming call initiated by a

calling party (e.g., caller) directed to a communication device (e.g., client terminal 16, See Fig. 2 and/or conventional telephone 16b, See Fig. 6); receiving a command (for example, the command may simply be the user requesting to have the caller added to the address book/address book database 21), responsive to the notification, to add the calling party to the address book; obtaining contact-related information (e.g., information 30a, name 30c, and address 30d, See Fig. 7-8) associated with the calling party (e.g., caller) in response to the received command; and adding the obtained contact-related information to the address book (See col. 1-2 lines 60-4 and col. 6 lines 22-32).

4. In regards to claims 2, 10, 19, 26, 30, and 35, Fobert discloses the method and system, wherein maintaining an address book comprises maintaining an address book in a server (e.g., Terminal Proxy Server (TPS) 14, See Fig. 2) coupled to a network (e.g., data network/Internet 24, See Fig. 2) (See col. 5 lines 8-15).

5. In regards to claims 3, 11, 20, 27, 31, and 36, Fobert discloses the method and system, wherein maintaining an address book comprises maintaining an XML-over-HTTP web service in a database (See col. 5 lines 8-15 and col. 6 lines 22-32).

6. In regards to claim 4, Fobert discloses the method, wherein providing a notification via a user terminal comprises providing a notification that indicates a telephone number (e.g. phone number/information 30a, See Fig. 7) associated with the incoming call (See col. 5-6 lines 56-3).

7. In regards to claims 5 and 12, Fobert discloses the method, wherein receiving a command responsive to the notification comprises receiving a command from the user via the user terminal (See col. 1-2 lines 60-4).

8. In regards to claims 6, 14, 15, 22, 37, and 38, Fobert discloses the method, wherein obtaining contact-related information comprises obtaining at least one of a name, a home address, a business address, a facsimile number, an e-mail address, an instant messenger address, an IP address, a cell phone number, a landline telephone number, an image, an audio signal, and a public record associated with the calling party (See col. 6 lines 22-32).

9. In regards to claims 7 and 17, Fobert discloses the method, wherein obtaining contact-related information comprises obtaining the contact information based on a telephone number associated with the calling party (See col. 5-6 lines 56-3 and col. 6 lines 22-32).

10. In regards to claims 8, 16, and 40, Fobert discloses the method, wherein obtaining contact-related information comprises obtaining the contact information using a caller identification (CID) service (See Fig. 7 and col. 5-6 lines 56-3).

11. In regards to claim 9, Fobert discloses a method for contact management comprising: maintaining an address book (e.g., address book/address book database 21, See Fig. 1-2) for a user; providing access to a contact source, the contact source including at least one listing representing a communication between the user and a second party (e.g., caller) (for example, the user chooses to ANSWER 34a the call from the caller) (See col. 6 lines 4-7); receiving a request to add the second party to the address book; obtaining contact-related information (e.g., information 30a, name 30c, and address 30d, See Fig. 7-8) associated with the second party in response to the

received request; and storing the obtained contact-related information in the address book (See col. 6 lines 22-32).

12. In regards to claims 13, 28, 32, 39, 41, 42, and 43, Fobert discloses the method and system, wherein providing access to the contact source comprises providing access to at least one of an incoming call history, an outgoing call history, an account statement, a billing statement, a caller ID (CID) display, an e-mail log, and a log of facsimile transmissions (See Fig. 7 and col. 5-6 lines 56-3).

13. In regards to claim 18, Fobert discloses a method for contact management comprising: maintaining an address book (e.g., address book/address book database 21, See Fig. 1-2) for a user; receiving a request (for example, the request may simply be the user requesting to have the caller added to the address book/address book database 21) to add a contact (e.g., caller) to the address book; wherein the contact is a party with which the user communicated prior to making the request (for example, the user chooses to **update** the caller's information in the address book/address book database 21) (See col. 7 lines 16-26); accessing a communication log associated with the user; searching the communications log for the contact; obtaining contact-related information (e.g., information 30a, name 30c, and address 30d, See Fig. 7-8) associated with the contact using information included in the communications log; and storing the obtained contact-related information in the address book (See col. 7 lines 16-26).

14. In regards to claims 21, 23, and 24, Fobert discloses the method, wherein accessing a communications log comprises accessing at least one of an incoming call

history, an outgoing call history, an e-mail log, and a log of facsimile transmissions (See col. 7 lines 16-26).

15. In regards to claim 34, Fobert discloses a method for contact management comprising: maintaining an address book (e.g., address book/address book database 21, See Fig. 1-2) for a user; receiving a command (for example, the command may simply be the user requesting to have the caller added to the address book/address book database 21) to add a party (e.g., caller) to the address book; obtaining contact-related information (e.g., information 30a, name 30c, and address 30d, See Fig. 7-8) associated with the party in response to the received command; adding the obtained contact-related information to the address book; detecting a change in the obtained contact-related information associated with the party by searching a plurality of network-based resources for information; updating the address book to reflect the change in the contact-related information (for example, the user chooses to **update** the caller's information in the address book/address book database 21) (See col. 7 lines 16-26).

16. In regards to claim 44, Fobert discloses the method, wherein detecting a change in the obtained contact-related information further comprises: comparing said information from searching the plurality of network based resources with the obtained contact-related information (See col. 7 lines 16-26).

17. In regards to claim 45, Fobert discloses the method, wherein searching a plurality of network-based resources comprises periodically searching said resources (See col. 7 lines 16-26).

18. In regards to claims 46, 47, 48, 49, and 50, Fobert discloses the method, wherein

updating the address book to reflect the change in the contact-related information comprises automatically updating the address book without user intervention (See col. 7 lines 16-26).

19. In regards to claim 51, Fobert discloses the method, further comprising: receiving instructions from the user that specify preferences for updating the address book (See col. 7 lines 16-26).

20. In regards to claim 52, Fobert discloses the method, wherein updating the address book to reflect the change in the contact-related information comprises updating the address book based on the preferences (See col. 7 lines 16-26).

### ***Response to Arguments***

21. Applicant's arguments with respect to claims 1-52 have been considered but are moot in view of the new ground(s) of rejection.
